

PUNIT MISHRA

Senior ML & AI Tech Lead | Agents, Inference & Multi-Tenant Platforms at Enterprise Scale

punit.mishra09@gmail.com | Bay Area, CA | punitmishra.com | linkedin.com/in/mishrapunit | github.com/punitmishra

PROFILE

Applied AI engineer and technical leader with 14+ years taking machine learning from prototype to dependable production at enterprise scale. Not only an architect — I **implement, deploy, and own systems end to end**, from agent runtimes and LLM inference pipelines to **GPU deployment on custom H100 clusters**. As Senior ML & AI Tech Lead in SAP CX Data & AI, I *actively lead a team of thirteen* — technically guiding and personally building the agent orchestration, memory, multi-model serving, fine-tuning, and multi-tenant infrastructure beneath our LLM products. Deep command of **Python, Rust**, Kubernetes, distributed inference, vector search, and **secure, ethical AI**.

EXPERIENCE

SAP

Sep 2018 – Present

Senior ML & AI Tech Lead | CX Data & AI

San Ramon, CA

- | **Built and own a domain-agnostic conversational agent platform** — a memory-managed runtime with multi-tenant LangGraph orchestration reusable across business domains, with performance-critical paths written in **Rust**.
- | Authored **natural-language-to-SQL over S/4HANA**, turning business questions into validated queries — now shipping within SAP's **2026 public and private cloud releases**.
- | **Introduced Ray** and built **LLM serving and fine-tuning on custom bare-metal H100 GPU clusters**; multi-model serving (self-hosted plus Claude, Qwen, Granite-class) on Kubernetes with automated evaluation harnesses.
- | Delivered visual and textual LLM agents across SAP's **CX & Commerce AI Toolkit** (PyTorch on Kubernetes); visual-attribute prediction on OpenAI / CLIP embeddings backed by **vector search and RAG**.
- | **Actively lead a team of thirteen** across three workstreams — technically guiding architecture (ADRs), owning AI ethics & compliance, and setting the group's SDLC and engineering standards. **SAP Security Expert**.

CALLIDUSCLOUD

Feb 2014 – Sep 2018

Senior Software Engineer | Thunderbridge AI / SAP Sales Cloud

SF Bay Area (acquired by SAP, \$2.4B)

- | Designed and built the **Thunderbridge AI** backend in Python on **Dataiku**, with multi-tenancy running every customer workload for SAP Sales Cloud optimization.
- | Ported the full Dataiku ML stack to **GKE on-prem (Google Anthos)** with Istio, and built the CI/CD backbone — Jenkins on Kubernetes, Kaniko image builds, and Artifactory distribution.
- | **Built developer-productivity tooling** — automated pull-request merges with Palantir **Bulldozer** and **Policy-Bot** on Kubernetes, wired into SAP GitHub Enterprise via OAuth to capture all Git events — cutting manual merge overhead across the team.

IBM

Oct 2012 – Dec 2013

Automation Systems Engineer

Dallas-Fort Worth, TX

- | Built a reporting and **data-validation automation framework** for JPMorgan Chase.
- | Developed reusable **Selenium / Java** test APIs (JUnit, TestNG) adopted across the firm.

EARLIER

UC Berkeley Law IST — Web Developer (2011) | **LawPivot (Google Startup Labs)** — SWE Intern (2011) | **LawPivot** — SWE Intern (2009–2010)

SKILLS

AI & AGENTS	Agent orchestration (LangGraph, LangChain), MCP (agent gateway / tool hub), LLM serving, fine-tuning & evaluation, NL-to-SQL, RAG, retriever-reranker, PyTorch, OpenAI / CLIP, MLOps (Kubeflow, Feathr, Feast)
GPU & SERVING	Ray (distributed), custom bare-metal H100 clusters, self-hosted LLM / embedding serving, Knative / KServe
INFRA & CLOUD	Kubernetes, Kyma / Gardener, Istio, Argo / GitOps, Jenkins, Docker, CI/CD; vector DBs (Qdrant, FAISS), Redis; Azure (AKS), GCP (GKE / Anthos)
PLATFORM & DATA	gRPC / protobuf, CAP / XSUA (OIDC / PKCE); PostgreSQL, SAP HANA, Oracle, Vertica, HDFS / Spark, Kafka
LANGUAGES	Python (FastAPI, Django), Rust , Java, Scala, TypeScript / Next.js
DEV PRODUCTIVITY	GitHub Enterprise automation (Bulldozer, Policy-Bot), Artifactory, Kaniko, ADRs, ephemeral PR environments
SECURITY & ETHICS	SAP Security Expert; internal-auth / identity design, threat modeling, SAST / SCA (Coverity, Black Duck, Fortify); AI ethics, safety & compliance

EDUCATION

UNIVERSITY OF CALIFORNIA, BERKELEY — B.S. Electrical Engineering & Computer Science

2012
